

# Tutortree

## Tutor Application

### **Application Requirements:**

1. Grade of B+ or higher in courses you wish to tutor
2. Provide a copy of your unofficial transcript
3. Minimum of one Faculty Recommendation Form\*

### **About Tutortree:**

Tutortree provides a mobile application for students and tutors to connect, schedule, and pay. Tutors manage their sessions through the app by signing up to tutor eligible courses then setting their availability and rate through the "Tutor Control Panel."

### **Availability:**

Tutors are not limited to any number of hours they wish to work, however, please do not sign up for any hours you cannot tutor. If a student books you, it is expected that you will be able to meet them.

### **Rate:**

Tutors are welcome to set their own rate, based on 30 minute increments. Please note that the average price students think is reasonable (n = 400) is \$24 per hour

### **\*Faculty Recommendations**

Attached is a faculty recommendation form that must be completed when returning this application. Having a faculty member familiar with your academic work is recommended.

### **General:**

- **Payment:** After a student has booked you your funds will be displayed in the "Balances" tab, tutors may then request a withdrawal. Funds are generally processed same day.
- All tutors must meet with students on campus.
- The software is under continuous development. It is expected of tutors to notify admins of any bugs, complaints, or to request additional features.
